ORMOND, Fla., Jan. 21.-Frank Croker was badly injured and his auto driver, by the overturning of Croker's racing car by only about three inches. on the beach here. the beach at a speed of 85 miles an hour. As they neared the point of the beach opposite the Hotel Ormond he caught up ley of Newton, Mass., the builder of steam propelled motor cars, who was riding a motor cycle in the same direction.

Some say that Stanley saw the fast approaching racing car and lost his head, steering a zigzag course; but this point is not clear. Croker started to pass to the left of the motor cyclist, but for some reason perhaps because the motor cyclist turned that way, too, he threw his car sharply to the right, heading it for the water. His car swerved and grazed Stanley's motor

evels, throwing him violently to the beach. Croker after turning was unable to straighten his car out and the continued skidding caused the throwing of the left front tire. The left front wheel then stuck in the soft sand and the car turned com- | home to Lew Fields's Theatre in an automopletely over twice before throwing Croker and Raoul out and then rolled out into the | West Forty-sixth street.

several scores of people from the hotel were gathered on the bluffs not 200 feet away. A dozen men rushed into the water and picked up the two unconscious and apparently dead men. Croker's head was under the water when he was picked up and as he was carried up the beach his groans gave evidence that he was alive.

Dr. Parks of Boston and Dr. Miller of this place were hurried to the beach, and arrived within five minutes of the time the accident occurred. They pronounced Raoul dead and said that death had been instantaneous and resulted from the crushing in of the head and chest. A piece of board was pressed into service and Croker's fractured

right leg placed in a temporary splint. A cot was quickly secured and a dozen men carried Croker on it to the Hotel Ormond, an eighth of a mile away. Three doctors-P. R. Bennett, Franklin F. Marsh and H. H. Seely-were hurried down from Daytona, and at 6:40 P. M. Croker was put inder ether and the work of setting the fractures and dressing the wounds continued for an hour, Dr. Parks acting as head surgeon. Before going under ether Croker was unable to tell anything about be accident and asked his friends what

had happened. Stanley, who was knocked off the motor cycle, suffered a compound fracture of the right leg and is now resting in a cottage adjacent to the Ormond. Arrangements have been made to start him for St. Augustine at 4 o'clock to-morrow morning. Stanley's version of the accident is that he knew nothing about the approaching car until it hit him. He denies that he turned

All eyewitnesses agree that Croker did all in his power to avoid hitting the motorcyclist and that he is experienced enough to know the risk he ran when he turned his car to one side going at the high speed that he was. Several well known racing car drivers who are here condemn Stanley for getting in the way of a racing car and scout the idea that he did not know

They said that had they been in the position Croker was they would not have whichCroker was travelling was to invite sure could to avoid hitting Stanley, and well knew the risk he ran in turning aside. William Wallace, E. R. Thomas, Fred M. Knowles and Edwin J. Conley, all close friends of Croker, are with him, and everything possible is being done to provide for his comfort and relief.

Dr. Parks, in a statement late to-night, said that he was afraid that Croker's left arm would always be stiff, but otherwise his recovery is assured. Croker will be placed on a train and started for New York

Behind the negotiations for the purchase of the Midvale plant is the intimation that if the Midvale persists in remaining independent and making low bids under its secret process for the manufacture of armor plate, the price of raw material will be increased so as to make such bids unprofitable.

Before this the trustee of the W. B. Ogden estate, Edwin B. Sheldon, who succeeded Mr. Green, had called for an accounting of the trusts reposed in Mr. Green. Mr. Sheldon's attorney, Daniel Seymour, had mining enterprise.

#### MIDNIGHT QUEST FOR DOMINIE. Couple Determined to Marry Went to Wrong Club to Find Alderman.

A young man in evening dress, accompanied by a young woman, drove up to the Tenderloin station just before midnight last night and asked for a private interview with Sergt Wall. The man explained that they wanted to get married. The sergeant suggested that they go to the Seneca Club, the Tammany club of the Twenty-fifth Assembly district. He thought that they might find the Alderman of the district there, forgetting that the Alderman was a Republican.

St. Peterseuro, Jan. 21 .- A grave crisis is confronting the Russian Government which will come to a head to-morrow when Father Gapon leads his followers to the Winter Palace to demand of the Czar the rights of freemen. Mobs paraded throughout the city to-day, gaining thousands of recruits to the ranks of the strikers, but the presence of troops prevented any serious demonstration. The night is passing in silent prepara-

tions. Beyond the bridges, where there are vast sombre quadrangles of industrial dwellings, families are preparing, men, women and children, to march to the palace. Regiments are entering on their toward the bridges which will be the first of the battlegrounds. The police reenforcements beyond the

bridges are not needed and they have bivouacked near the night shelters. No angry expressions are heard from the concourse of arrivals from the provinces who are awaiting Sunday's pilgrimage. There is nothing to do but to wait for the morrow. The area within the bridges, which is

guarded by artillery and infantry with cavalry near at hand, includes the palaces of the Emperor and the Dowager Empress, the residences of the Grand Dukes and the When the gizzard of the last fowl, a fat, Embassies. They believe that his mistakes are due solely to the ignorance imposed upon him by his Ministers and entourage. Hence they will make their plea to no Minister, Grand Duke or other representative of the sovereign. The Czar himself must receive them or they will resort to the only means left to secure relief to a people oppressed beyond all endurance. Such is the situation to-night at the moment of the greatest
